Learning Objectives:

- To improve confidence and skills in:
- Diagnosing conditions of the upper and lower limb
- Identifying which patients may benefit from a joint injection procedure
- Improving confidence in identifying anatomical landmarks & performing injection procedure
- Increase awareness of complications and risk factors

BGPERT will risk assess each face to face event, to make sure we are compliant with social distancing regulations and will send you each events requirements with a reminder a week before the meeting.

This meeting has been accredited by BGPERT. For more information about BGPERT including additional details about meetings visit our [website](#).

This meeting will be supported by BMS a pharmaceutical company. Exhibition stands are provided for those sponsoring, assisting BGPERT to cover their costs for this meeting, they have no editorial control over the contents.

This meeting has been organised in collaboration and funded by BIRD

The Bath Institute for Rheumatic Diseases, a registered charity in Bath, exists to support arthritis research, education and patient engagement so that we can improve treatment for patients with rheumatic diseases. For more information, please their [website](#).
