BGPERT Online Meetings via Zoom

Instructions for Members

BGPERT is offering online meetings whilst we are unable to provide our usual programme of face to face meetings. Most of these meetings will be recorded if you can't attend the live meeting.

A meeting reminder will be sent to those registered to attend the day before the meeting. This link is automatically password protected for BGPERT members.

These login in details are private for you, our member. We assure our speakers their audience are our members, allowing confidentiality for you and the speakers, when sharing cases or data during the meeting. If you have friends or colleagues who would like to join, or view events on demand, do put them in touch with us as we need as many members as possible to continue our education programme.

Thank you for your understanding.

To access our webinars:

- Download zoom player https://zoom.us/download

- Please amend your screen name so we know who is in attendance enabling us to verify your membership status.

- When you join our meeting you will be placed in a waiting room and the host will move you to the meeting shortly before event starts.

- This meeting will automatically start with your camera and microphone set to off. This will allow better streaming and reduces background noise. The experience is also better on a computer than a mobile phone, but of course it works either way.

- If you have a question or a point you can also write it in the chat box during the event.

If you have any questions, please don't hesitate to get in touch via email BGPERT@birdbath.org.uk and we will try our best to help you!
